### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification under "Related Cases" delete current paragraph and insert –  
This case is a continuation of Serial No. 10/195,816, now Patent No. 6,620,016 entitled "Bubble Generating Assembly", filed July 15, 2002; which is in turn a continuation-in-part of Serial No. 10/133,195, now Patent No. 6,659,831, entitled "Apparatus and Method for Delivering Bubble Solution to a Dipping Container", filed April 26, 2002; which is in turn a continuation-in-part of Serial No. 10/099,431, now Patent No. 6,659,834, entitled "Apparatus and Method for Delivering Bubble Solution to a Dipping Container", filed March 15, 2002, whose disclosures are incorporated by this reference as though fully set forth herein.—

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The specific limitations of "...with the tubing positioned between the pressure roller and the guide wall; wherein the tubing is not compressed by the pressure roller when the trigger mechanism is not actuated" are anticipated or made obvious over the prior art of record in the examiner's opinion. For example 5,613,890 to DeMars discloses all of the

elements of the claim including having tubing (98) positioned between pressure rollers (94) and a guide wall (wall of chamber 96) such that when the trigger (18) is pressed, the rollers move against the tube to control flow of bubble solution. As seen in figure 5, the pressure rollers of DeMars are always compressing the tubing to some degree, even when the trigger is not pressed/ actuated (as shown in figure 5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
